¿Qué es WizColor?

La tecnología Dahua WizColor se combina a la perfección con el potente AI-ISP, el sensor de gran tamaño de píxel y la gran apertura de las cámaras. Esta integración única permite a las cámaras capturar sin esfuerzo imágenes de alta calidad con colores vibrantes durante la noche, garantizando la conservación de los detalles y minimizando el desenfoque por movimiento.

WizColor

F1.0

F1.6

F2.0

La cantidad de luz entrante de la apertura F1.0 de WizColor es **2.5 veces** superior a la de F1.6.
